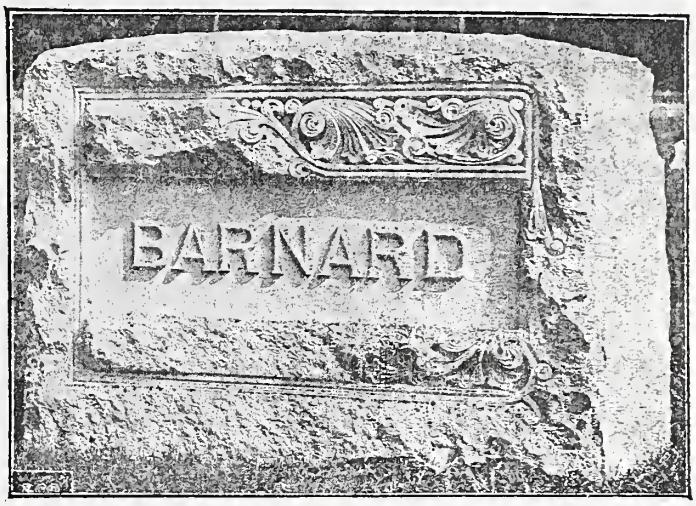
Three Rivers Monumental Wor

J. H. WILSON, Proprietor.



Fine and Artistic Monuments a Specialty. Workmanship and Quality Guaranteed.

204 St. Joe St. Phone 45 THREE RIVERS, MICH.

What One Cent's Worth of

Electricity Will Do

Will operate a 12-inch electric fan for 90 minutes.
Will operate a 6-pound electric flat iron for 15 minutes.
Will operate a sewing machine motor for three hours.
Will operate a coffee percolator for 4 cups of coffee.
Will operate a 1-quart water-heater or baby's milk warmer 2 times.
Will operate a chafing dish for one rarebit.
Will operate a 7-inch frying pan for 12 minutes.
Will operate an electric griddle for 8 minutes.
Will run an electric piano for 1 hour.
Will vulcanize a patch on an automobile tire.
Will heat an electric curling iron once a day for 2 weeks.
Will operate an electric horse clipper for clipping one horse.

In view of the above, would it not seem better to borrow the cent than to do without the electricity.

Let us furnish you with an estimate of the cost of wiring your home. There is no obligation incurred by so doing.

The Evening Commercial

CHAS. S. YOUNGS. Editor

The newsiest paper in St. Joseph County, and has a much larger circulation than any opponent. Is also the only Republican newspaper published in Three Rivers.

FOUR PAGES of HOME PRINT

EVERY AFTERNOON

Since the first issue of this paper the citizens of this city have recognized the Commercial as the leading local publication. Why? Because it has always been the aim of the editor to treat fairly any and all subjects of interest which have at different times come to public notice, and the columns of the paper are always full of interesting and instructive matter which is eagerly perused by its

1800 DAILY READERS

Tell Your Friends.

The Commercial Job Department

Is also thoroughly equipped to handle all classes of fine and artistic job printing, and everything delivered from this office is guaranteed to be full count and best of workmanship.
We endeavor to carry a complete line of fancy and regular stock, but at times we are obliged to make special orders; this however will in no way hinder the rapidity of production, as the stock will be delivered almost before you want it.

We Make a Specialty of first class work on Short Notice.

DESCRIPTIVE--Three Rivers, Mich.

Three Rivers, Michigan, known all over the world, is a broad statement, but nevertheless true, for the reason that here is located the largest manufacturing concern of the kind in the world, whose shipments are sent to all parts of the continent, and in addition, this is the home of the largest strawberry plant farm in the country, whose shipments are sent to many foreign countries as well as to all parts of the United States. Hence, it may be safely said, without fear of contradiction, that this city and vicinity is known in all lands.

History tells us, that in an early day, one of the first settlers and his faithful wife strolled down to the junction formed at this place by the St. Joseph, Rocky and Portage Rivers, and, seated on the banks of the three streams mentioned, among the abundance of wild flowers, they consulted for some time in regard to a name for their adopted home. Finally, as she noticed the swirling waters for a few moments, the wife looked up confidingly into her sturdy husband's face, and said, "Let us call it Three Rivers," and at this moment the matter was decided.

Nature seems to have been lavish in the bestowal of her rich gifts on this certainly beautiful city.

Here, as stated, the St. Joseph, the Rocky and the Portage rivers meet, and each seems to vie with the other to see which shal contribute the most to make the spot where Three Rivers is located, the most charming. That they have done well is conceded by those who come among our people, who most generously acknowledge that the title bestowed upon us, by one of old, is fully merited, namely, "The City Beautiful."

The early settlers seem to have caught the inspiration from nature, and the result is broad, level streets and avenues, lined with beautiful shade trees, which give the resident portion of the city, the appearance of a magnificent park.

A feature of the place is the many beautiful residences, with their well kept lawns, and in season, flowers in abundance, show the tendency of the residents to make their home city a permanent abiding place as long as the Good Father shall permit them to remain.

Situated as it is on the Air Line Division of the Michigan Central Ry., and the Kalamazoo Division of the Lake Shore Ry., which gives it direct connections with Chicago and the Great Lakes on the west, and Detroit and Toledo on the east, as well as the great fruit belt, it thereby furnishes direct shipping connections for its manufactured goods second to none in the state.

While it is situated near the three streams mentioned, its location is above all danger of flood unless it is in times of extreme high water, and even then but a very small portion is affected by the floods.

A fine system of sewage has been inaugurated, many thousand feet hav-

DESCRIPTIVE--Continued

ing already been laid and more is being added each year.

With one of the finest gas plants in the country and a system of electric lighting and power, furnished from the big plant located at Constantine, and a street and commercial lighting system second to none, the city is certainly a Mecca for the many strangers. Standing at the head, in way of manufacturing is the large plant of the Sheffield Car and Electric Works, located in the second ward. It is conceded to be the largest plant of this kind in the country.

Added to this is the Three Rivers Robe Tannery and the National Fur and Tanning Co., that annually turn out goods in the shape of fine overcoats and mittens by the thousand. Next is the Three Rivers Knitting Mills, Three Rivers Brass Works, Three Rivers Foundry and Machine Co., Three Rivers Iron and Metal Co., the Eddy Paper Co., and several other industries, all of which give employment to an army of hands of both sexes.

In way of churches is the Presbyterian, Methodist, Baptist, English Lutheran, German Lutheran, 9 fine church buildings, Reformed, Protestant Methodist, and a fine Cathoic, aside from several other church organizations that occupy quarters, all having an ordinary good attendance, which speaks well of the religious tendencies of the residents.

Probably no finer school system exists in the state than here in Three Rivers. With a $30,000 union high school building, a fine large building in the second ward, another in the first ward, and one each in the fourth and third wards, all under the most systematic management with a full corps of efficient teachers, under direct supervision of a general superintendent, it is conceded that the young men and ladies of Three Rivers have many facilities in the way of education, far in advance of many other cities of its size in the state.

One of the largest strawberry plant farms in the country is located here, known as "The R. M. Kellogg Co.," all of which is under the direct management of Messrs. Beaty and Burk. Giving employment to hundreds of men and women each spring, during the busy shipping season, also to a host of men during the summer, it is one of the features of this hustling city.

The Carnegie Library of this city is something worthy of special mention. Standing in the heart of the city is a fine boulder stone building, built specially for it, and in which are thousands of fine books, under a trained librarian, it is certainly the pride of the city, and many are the words of praise spoken by parties who make it a point to come many miles to avail themselves of the information that can be gained among its many volumes of reference.

Owing to a disastrous fire several years ago, the city was for a time without a grist mill, but a fine modern mill has been built, equipped with the most modern machinery, and today Three Rivers is reaping the benefit of the money expended in way of getting the mill.

Another special feature of the city is its finely paved street, running from the post office direct to the Air Line Ry., crossing one of the finest concrete five span or arch bridges over the St. Joseph River, that is admired by the many hundreds of strangers that annually visit the place.

Very much more might be said of this, the banner city of Southern Michigan, but to appreciate it all you must come and see, and our word for it, and we speak from experience, you will always find the "latch string out" to all strangers.

The first settler known in history was Jacob McInterfer and family, who came here in the year 1829 and settled in what is now known as the Third Ward of the city.

The Portage and Rocky rivers each furnish about 700 horse power, while with a large circular concrete dam built at a cost of many thousand dollars the waters of the St. Joseph are made to do an immense work for the

DESCRIPTIVE--Continued

city by means of a big race running directly across the second ward and furnishing power to one of the largest concerns of its kind in the world, namely the Sheffield Car and Electric Works, which employs hundreds of men.

Not satisfied with this, the river has again been harnessed at the village of Constantine seven miles south of the city, and is made to send back from that town an immense amount of electric current that furnishes power and lights for the city.

The census of 1900 gave a population of 3,950, and that of 1904 was 3,915; today it would run close to 5,000.

The village of Three Rivers was incorporated proper in the year 1855, with Philip Lantz as president and George B. Reed as clerk. First trustees were Thomas M. Clark, S. L. Herrick, Sylvester Troy, A. B. Moore and W. D. Pettit. In the year 1905, a city charter was obtained, and M. H. Bumprey was the first mayor with Fred J. McMurtie as clerk.

The first aldermen elected under a city charter were A. H. Huylar, Chas. E. Perrine, Geo. C. Brissette, John Tracy, Isaac Loomis, B. F. Schock, E. G. Tucker, A. N. Hill, Wm. P. Gibbs and Geo. E. Miller.

The city has a well equipped fire department with a fine fire wagon and team always ready for business, and the records show less fire losses than any other city of its size in the state.

A fine business college is located in the fourth ward, separate and distinct from the city school system in which many students are fitted for practical work, commercial and otherwise. Two daily papers, the Commercial and Hustler, sending the news of the day to hundreds of readers, also the Weekly Herald.

Many of the older residents of the city have passed away, and consequently the management of this work is under many obligations to Mr. E. G. Tucker for information given in order to make up this sketch. Mr. Tucker has been a resident of the city for 52 years and has kept in close touch with the events of the city. A prominent paper of the city of Detroit said of him: "Mr. Tucker is one of the best known citizens of the place. He is what may be properly termed a useful citizen. He has held various public offices, and from the first, he has kept close tab on the work of the village and city. He is called the walking encyclopedia on municipal affairs. Whenever matters come up requiring special information they say 'Refer it to Tucker, he'll explain it.' He is a full fledged Democrat, one who never drinks, or smokes, surely a special feature of his party. Mr. Tucker explains his allegiance to the party of his choice by saying 'That in early life, way back in the forties, he used to go fishing with ex-President Martin VanBuren, at his home in Stuyvesant Falls, Columbia county, York state."

E. G. TUCKER

General Repairing in Line of Mason Work

Over fifty years of Actual Experience in our city amply fits him for his work.

While slightly on the other side of life, he still solicits a part of your work.

Residence 703 Cor. Lincoln and North St;, Third Ward, City.

American Laundry — If our work suits you, tell others. If not, tell us. — L. D. WEST, Prop. Phone 648

The official flag of the United States bears forty-five stars (one for each state) in a blue field, arranged in six rows—the first, third and fifth rows having eight stars each, the alternate even rows having seven stars each. The garrison flag of the army is made of bunting, thirty-six feet fly and twenty feet hoist; thirteen stripes, and in the upper quarter, next the staff, is the field or "union" of stars, equal to the number of states, on blue field, over one-third length of the flag, extending to the lower edge of the fourth red stripe from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The American "Jack" is the union or blue field of the flag. The Revenue Marine Service flag, authorized by Act of Congress, March 2, 1799, was originally prescribed to "consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field." The sixteen stripes represented the number of states which had been admitted to the Union at that time, and no change has been made since. Prior to 1871 it bore an eagle in the union of the pennant, which was then substituted by thirteen stars in a white field, but the eagle and stars are still retained.

June 14th, the anniversary of the adoption of the National flag, is celebrated as Flag Day in the public schools, and by the display of the emblem on public buildings and private houses in a large part of the Union.

BRIEF BUSINESS LAWS.

If a note be lost or stolen it does not release the maker; he must pay it if the consideration for which it was given and amount can be proven.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of a special partnership. The word "limited" in connection with a firm name indicates that a limitation of responsibility for each member is fixed.

Ignorance of the law excuses no one.

An agreement without consideration of value is void.

A contract made with a minor or a lunatic is voidable.

A note obtained by fraud or from a person in a state of intoxication cannot be collected. It is a fraud to conceal a fraud. Signatures made with a lead pencil are good in law. The acts of one partner binds the rest.

"Value received" is usually written in a note, and should be, but it is not necessary. If not written it is presumed by the law or may be supplied by proof.

The maker of an "accommodation" bill or note (one for which he has received no consideration), having lent his name or credit for the benefit of the holder, is not bound to the person accommodated, but is bound to all other parties, precisely as if there was a good consideration.

No consideration is sufficient in law if it be illegal in its nature.

Checks or drafts must be presented for payment without unreasonable delay.

An indorsee has a right of action against all whose names were on the bill when he received them.

If the letter containing a protest of non-payment be put into the post-office any miscarriage does not affect the party given notice. Notes of protest may be sent either to the place of business or residence of the party notified.

WEIGHTS AND MEASURES

Troy Weight.

24 Grains makes 1 Pennyweight,
20 Pennyweights make 1 Ounce.

By this weight, gold, silver and jewels only are weighed. The ounce and pound in this are the same as in Apothecaries' weight.

Apothecaries Weight.

20 Grains make 1 Scruple,
3 Scruples make 1 Drachm,
8 Drachms make 1 Ounce,
12 Ounces make 1 Pound.

Avoirdupois Weight.

16 Drachms make 1 Ounce,
16 Ounces make 1 Pound,
25 Pounds make 1 Quarter,
4 Quarters make 100 weight,
2000 Pounds make 1 Ton.

Dry Measure.

2 Pints make 1 Quart,
8 Quarts make 1 Peck,
4 Pecks make 1 Bushel,
30 Bushels make 1 Caldron.

Liquid or Wine Measure.

4 Gills make 1 Pint,
2 Pints make 1 Quart,
4 Quarts make 1 Gallon,
31½ Gallons make 1 Barrel,
2 Barrels make 1 Hogshead.

Cubic Measure.

1728 Cubic Inches 1 Cubic Foot,
27 Cubic Feet 1 Cubic Yard,
128 Cubic Feet 1 Cord (wood),
40 Cubic Feet 1 Ton (shipping),
2150.42 Cubic Inches 1 Standard Bu.
268.8 Cubic Inches 1 Standard Gallon,
1 Cubic Foot four-fifths of a Bushel.

THE IDEAL PUBLICATION FOR WOMEN and the HOME

EDITED BY
CHAS. DWYER

The Ladies' World

Literary Attractions:

The serials, short stories and verse include the work of the foremost authors of the day, whose names stand for the best quality of bright, entertaining and wholesome writing.

Domestic Science Departments:

These departments constitute one of the strongest features of the magazine. They are conducted by well known authorities on their respective subjects, and are especially helpful because they are always most practical.

Fashions and Dressmaking:

The former dressmaking expert of The Delineator has charge of these pages, and her descriptions of the new fashions and hints on their making prove invaluable to the home dressmaker. All the styles illustrated are the latest and best of the New York and Paris designs.

Special Features:

Especially popular contributions are the beautifully illustrated "Special Feature" articles published each month that entertainingly treat of some historical, biographical or musical subject; the departments dealing with Etiquette and Good Looks; and the pages devoted exclusively to Stories and Pastimes for Children.

Price—50 Cents Per Year:

This small sum secures to the subscribers a beautifully illustrated and printed monthly magazine of from 36 to 48 large sized pages—unquestionably the best and at the same time the cheapest high grade domestic magazine in America.

Subscription Inducements:

Write for 20-page illustrated Premium List describing over 250 different premiums, or send for our Special Terms for Cash Agents.
